Valor VP500 - (Requires Valor monthly fees)

For the terminal placement program, the merchant must return the equipment in good condition within 7 days if they cancel services. If not returned or damaged, \$500 will be charged per terminal placed in addition to the early termination fee. A \$125 swap/replacement fee in addition to shipping charges will be assessed after the 12-month warranty expires should the existing equipment be deemed unusable and need to be replaced.

This is a low-risk program, and details are subject to change. Hardware shipped without an assigned Merchant ID Number (MID) will not be discounted. SIM cards are not included. Special order equipment does not qualify.

*This is not shared as it is a buy rate item to offset the cost associated with the terminal placement. All other applicable terms, costs, buy rates, etc. apply pursuant to respective Agent/Reseller agreements and programs.
