Why Greencard

✅ It's fast and easy

Customers can download the Greencard app, sign up, add a bank account and be ready to pay all in less than the time it takes to get to the register and checkout.

✅ It's safe and secure

Greencard does full KYC & AML checks on every customer account and all transactions are 2048-bit encrypted and stored in secured databases.

✅ It's reliable

Unlike other industry solutions, Greencard is fully compliant and will not be shut down causing merchants to scramble or go cash-only.

About Greencard

Greencard offers a secure, simple and lightning-fast digital wallet that allows customers to use funds in their bank account to instantly pay merchants for cannabis purchases. It's fast, safe, secure and reliable.

greencard

The simple, secure, anywhere way to pay for cannabis

3 Easy Ways for Customers to Pay

In-Store Payments

In-store payments using the mobile app, a customer can scan an auto-generated QR code to pay.

Web Payments

Online payments integrate directly into your current e-commerce web store.

Automated Retail

Automated retail payments integrated directly into custom cannabis vending machines.

Seamless Invoicing

Send invoices to customers & vendors directly from the Merchant Dashboard. Recipients will receive an email and can pay with 1-click.

Fully Compliant

Greencard is a fully compliant payment system that will not get shut down like other competing solutions.

Adjustable Processing Fees

With Greencard, you can mitigate processing fee costs effectively, while maintaining transparency by passing on the processing fee to your customer.
